POLICY

CCV allows students to audit courses for which they are academically prepared. Students do not receive either credit or a grade for courses they have audited. Title IV Financial aid funds cannot be applied to audited courses.

PROCEDURES

1. Students must declare themselves as an “audit student” at the time of registering for a course and cannot change their status after the third class meeting or the 20% point, whichever comes first.
2. Audit students pay all regular fees and full tuition for a course taken under the audit option.
3. Audit students must meet requirements of CCV’s Basic Skills policy.
4. Audit students are subject to all appropriate policies, like any other student enrolled in a CCV class.
5. Audit students will be given a notation of AU at the end of the course but will not receive an evaluation, course grade, or credit for the course.
6. There is no option available for a student to request credit for a course that has been audited.
