### POLICY

To foster a climate of respect for everyone's need for physical and psychological well-being, the College utilizes a referral system for students who are experiencing personal problems that interfere with their work or learning at CCV.

### PROCEDURES

1. Faculty, staff or students who are concerned about the well-being of a student may express both their concern and the reasons for it to an academic advisor at their location.
2. An academic advisor or designated staff member may contact the student about whom concerns have been communicated and may provide the student with contact information about assistance programs.
3. Students maintain the right to accept or reject referrals.
4. The cost of any treatment that results from a referral is the student's responsibility.
5. Any situation in which a student's behavior poses an imminent and serious threat to the safety and well-being of themselves or others will be treated as an emergency situation requiring notification of local law enforcement or medical professionals as appropriate.
6. All emergencies shall be promptly reported to a member of President's Council.
