POLICY

The Community College of Vermont administers a variety of scholarship funds and routinely makes scholarship awards to students.

PROCEDURES

1. CCV's scholarships committee oversees all scholarship awards. The committee is chaired by the Director of Financial Aid or designee.
2. Eligibility for scholarships varies according to the established criteria for each particular fund. CCV degree students who have completed one semester of coursework and are in good academic standing are given priority during scholarship awarding.
3. Some scholarships require the completion of a CCV scholarship application form.
4. In some cases, students are recruited to apply for or are nominated to receive scholarships based on the specific criteria for the award.
5. Information about scholarships is available to students through financial aid counselors and the College's website.
